

MiniModus

Automation for swing gates with leaves up to 2 m - 250 kg

EASY TO INSTALL

MiniModus is the gear motor with articulated arm for swing gates with leaves up to 2 m - 250 kg. **With just 155 mm in width, this gear motor allows its fixing also on small spaces while the geometry of the articulated arm guarantees its installation also on wide posts with distance between the axle of the leave and the fixing surface of the gear motor up to 240 mm.**

COMPACT AND SAFE

MiniModus holds inside a control unit and the housing for batteries which guarantee operations also after several hours after a black-out.

The release operation, as for all KINGgates products, is simple and fast while the fixing of the gear motor to a post and on the gate is fast and comfortable to the fitter. In fact, thanks to screw-adjustable brackets, it is not necessary any operation of welding.

SMART TRADITIONAL ELECTRONICS

STARG8 control units radically simplify the installer's job, guaranteeing high levels of performance in terms of safety, time and speed of installation.

A single programming method speeds up the activation of the automatic devices and managing maintenance operations becomes simple and practical.

STARG8

1 control unit 24 Vdc and 1 control unit 230 Vac, for all gate motors.

Practical regulation using trimmers, self-learning gate travel programming using a single key, diagnostic LEDs and dip-switches for setting operating modes. Management of slow-down options, speed regulation and obstacle control in all versions. Plastic cover with explanatory labels and spare fuses.

1.

2.

3.

1. CONTROL UNIT

Fast regulation by trimmers and dip-switches, programming with self-learning function

2. ARTICULATED ARM

Strong die-cast aluminium arm with anti-shearing device

3. MECHANICAL LIMIT SWITCH

Strong adjustable steel limit switch

BASIC INSTALLATION

1. Operator MiniModus MA
2. Operator MiniModus SL
3. Transmitter
4. Photocells mounted on posts
5. Photocells
6. Flashing light
7. Key or digital switch

READY FOR

TECHNICAL DATA

Code		MINIMODUS
Mains power supply	(Vac 50 Hz)	230
Motor supply	(Vdc)	24
Maximum power draw	(W)	250 (100 slave)
Speed	(rpm)	1
Torque max	(Nm)	150
Working cycle	(%)	50
Protection level	(IP)	44
Operating temperature	(°C)	-20 ÷ +55
Automation weight	(kg)	6.2
Operator dimensions	(mm)	155x253x314 h

Also available in 110 V / 60 Hz version

THE KING SPECIALIST

KINGspecialist app for installers

The KINGspecialist app allows you to complete all installation setup phases directly from your smart phone or tablet.

Thanks to the wifi module,

which can be coupled to STARG8 central units, every professional can now manage all the functions offered by the KING Smart Traditional electronic device simply and intuitively.

The App also introduces new functions, such as scheduling of periodical system maintenance, central unit check-ups and remote control management.

KINGgates relies on a network of expert professional installers.

KINGspecialist is a programme available only to installers: KINGgates quality in the form of a service. Installer-friendly innovations and continuous updates to keep growing together.
